BEST PEN OF 4-H LAMBS was shown by Ted Hess, Leola R1 (right) His brother Tom, had the individual champion. L F Photo

Ted & Tom Hess Win Top Honors With 4-H Lambs

Lancaster County 4-H members won the majority of championships in 4-H Club market lamb classes at the 52nd Farm Show.

Two, brothers, Ted and Tom Hess, of Leola, RD 1, captured the two top places in championship competition Ted exhibited the grand champion pen of lambs and Tom showed the individual grand champion The winners were Hampshires Last year Tom won the reserve championship in the Hampshire classes

Becky Bushong, of Columbia, RD 2, also a former Farm Show champion, exhibited the reserve champion pen of lambs and reserve individual champion, both Dorsets.

DORSET — Becky Bushong continued her winning ways by capturing the championship in both individual and pen of lambs judging This is the third

Parents Of Multi Keystone Farmer Sons Are Honored

HARRISBURG— Special recognition was given to four sets of Lancaster County parents with three of more Keystone Farmer sons here Wednesday, at the 39th Annual Awards Convention held at the Forum Building in conjunction with the Farm Show The Parents so honored and their sons are Mr and Mrs Daniel Erb, Columbia, (Daniel '65, Dave '66, Clair '68, Mr and Mrs John A Breneman, Willow Street R 1, (Arthur '58, J. Roy '61, Carl '68); Mr and Mrs J Wilbur Houser, Lampeter, (James '63; J William '66, Thomas '68). and Mr and Mrs Robert B Risser, Lititz R1, (R Eugene '65; J. William '66; Thomas '68),

Also a local high school principal and a Vocational Agriculture teacher were given honorary Keystone Degree Awards

Donald A Sheaffer, Principal of Garden Spot High School, New Holland was one of 11 school administrators across the state so recognized And Ralph D Layman, Vo-Ag teacher at Solanco was one of 9 state teachers honored The awards were given for outstanding help to the FFA organization

Featured speaker for the convention was the Honorable Kenneth B Lee, speaker of the Pennsylvania House of Representatives

Also 23 local youths received their Keystone Farmer Degrees after winning both champion and reserve champion in the Shorthorn Division, they had to be content with two other first placings and the reserve champion Hereford

Eugene Bollinger, Denver R2, and Larry Herr, 840 Penn Grant Rd, Lancaster, were the winners with Shorthorns Bollinger, son of Mr and Mrs Paul Bollinger had the champion with his 1st place in the Heavy weight class The steer was named Victory

Reserve honors went to Herr on his first in the Light weight class Larry is the son of Mr. and Mrs Carl H Herr

In the Hereford breed, John Long, Manheim R4 was first in the Light-heavy weight class and went on to win the reserve champion award behind the York County entry of Nina Knapel, Dallastown R1 John is the son of Mr and Mrs Silas Long

Jeffrey Greider, Columbia R2, was first in the Hereford Light weight class

When it came to the over-all grand champions of the day it was Angus all the way. Judge, Harlan D Ritchie, Michigan State University, picked the entry of Patricia Peffer, Carlisle R6, Cumberland County, for both Angus breed and Show grand champion

STEER SHOW

Lancaster Youths Content With 1 Breed Champ & 2 Reserves; Cumberland Has Grand Champion

Lancaster County 4H Baby Beef Club members started out well Thursday in the annual Farm Show Steer classes but

Bull Tells Farm Women Dieting Boosts Skim Milk Sales

Skim milk sales are up 12 percent because of dieting, weight watching and sales promotion, the Society of Farm Women of Pennsylvania were told on the opening day of the 52nd Farm Show

State Secretary of Agriculture Leland H Bull said the demand for skim milk has raised the price of the product until it is only a few cents less than the whole milk price

Bull said that in certain sections of New Jersey skim milk is selling for two cents more a quart than whole milk

"When I was a boy we had no use for skim milk on our dairy farm and used to consider it as a nuisance," Bull said

Agriculture must promote and find new markets for its products, Bull told the farm organization which met at Harrisburg in conjunction with the Farm Show

Leininger Has Spotted Swine Reserve Champ

HARRISBURG — Swine championships for Lancaster County were hard to come by here Monday, as only one local breeder managed a reserve championship

C Warren Leininger, Denver, showed the reserve champion Spotted Swine with a second place win in the Senior Spring Gilt class The championship hog stood first in class and was from York County Leininger also had a first place entry in

(Continued on Page 9)

County Turkey Grower Shows Best Display

A Lancaster County turkey grower took championship honors in the dressed turkey show at the Farm Show this week. Harry Lamparter, Mountville, had the champion carcass and the best carcass display

In the ready to cook class, Lamparter placed 1, 3, and 6 and in the large young hens over 16 pound class he was 1, 2, and 3

Importance Of State Agriculture Shown In University Display

"Forestry for Living" was one of the themes at The Pennsylvania State University display at the 52nd Farm Show.

Pennsylvania's paper and other wood products are valued at $1 3 billion per year Workers earn $280 million making these products

Also 1 5 million Christmas trees and 100,000 gallons of maple syrup are produced in the state

Of Pennsylvania's 17 million acres of forest, 13 5 million acres are privately owned.

The Penn State display showed that sales of logs and bolts produced in the state total $50 million per year.

The importance of the farmer's contribution to the state's economy was also pinpointed in the display Pennsylvania farmers and their wives pay $41 million in taxes and $21 million in interest each year Expenses for feed, fertilizer, lime and seed are about $300 million. Other costs amount to nearly $400 million.

Farm families throughout the nation spend at least $33 billion a year for the same things that city people buy.

Glacier Alfalfa

The forage crop that helps you get

MORE beef, MORE milk,

Glacier is especially high-yielding. It is a winter-hardy Flemish alfalfa which can yield eight or ten tons per acre when you give it good management. Fine stemmed, leafy. Protein-rich feed. Helps you get extra beef or milk.

Haymor is a very similar variety which has given excellent results on many Lancaster County farms. It is a very good yielder and stands will last longer than Glacier where bacterial wilt is a factor.

See your Hoffman Seed Man for details about these two varieties. Also, 919, Certified Buffalo and other dependable alfalfas.

From Where We Stand . . .

Are You Ready For A Day On The Tractor?

We received these eight items to check yourself to see if you are ready for a safe productive day of tractor operation Thought we would pass them on

Are you physically fit to operate your tractor safely? Are you rested and feeling OK, and not tired, sleepy. feeling "low" or taking strong medicines?

Can you give the job necessary attention to avoid an accident? Are you in a normal state of mind, and not worried, upset, tense or preoccupied?

Are you properly dressed for the weather? Clothing and shoes comfortable and in good repair?

Did you inspect equipment before starting to be sure it's in safe operating condition, reducing chance of sudden failure that could trigger an accident?

Are any physical impairments (poor eyesight, deafness. handicaps or those connected with advancing age) corrected or extra care taken when operating tractors to compensate for them?

Are younger drivers trained and instructed in safe tractor operating practices? Do you let them work alone only after you are satisfied they can handle tractors safely?

Do you keep small children off and away from farm machinery and never let them ride on a tractor or trailing vehicles?

Do you always operate your tractor and other farm machinery according to recommendations in the instruction manuals? Are you familiar with and follow safety suggestions in these manuals?

It would be a good thing to ask yourself these questions before starting a full days of plowing next spring At least that's the way it looks from where we stand.

★ ★ ★ ★

Spectre Of Centralization

Wherever you turn. the spectre of centralized authority is moving closer. Urban planners are now talking of a national land bank, which would empower the federal government to acquire land in and around cities and provide for planned development The reason given for such a move is that as open land in and around metropolitan centers becomes scarcer, public controls over its use must increase

There is no denying that as the pressure of population grows and land becomes scarcer, the use of real estate in congested areas will be subject to more regulation But, it would appear that this could be achieved without further impairing one of the most fundamental rights of a U S citizen and that is the right of land ownership This right is symbolized by the old expression " . . a man's home is his castle."

When the government begins to acquire land on a massive scale for development as the government thinks best, where is the process to stop? Moreover, the acquisition of land by the federal government around cities would cut off vital sources of tax revenue for local government

A national land bank is the old story of government ownership all over again. The rights of private citizens are overridden, local independence is undermined and remaining taxpayers must take on a heavier load to make up the loss on another nonproductive government enterprise. There must be a better way to solve today's urban problems.

To Master The Rubber Band

First there was Zip Code and now the Post Office Department has added "snap" in its service by switching from twine to rubber bands for bundling mail.

Now when the Post Office Department makes a change, they don't leave anything to chance and as a result have produced Postal Item 0-1152 — a two-page folder on the life and habits of the rubber band — what it is, what it looks like. how to cope with it and, above all, how to master it.

(The specific rubber band in question, as you are surely wanting to know, is "band, rubber, natural, 2¼ inches long, ⅛-inch wide and oval in shape.")

What the elaborate instructions seem to boil down to is that to band a bundle you first snap a rubber band around the bundle of mail the long way, then snap another rubber band around the bundle the short way — and be constantly alert that the band doesn't snap back

It's definitely encouraging to Occupants, Box Holders and Addressees to know that when their Post Office goes after progress, it goes after it to beat the band.

Across The Fence Row

The secret of study is concentration; the secret of concentration is to be interested

According to a recent United Press International release out of Madison. Wisconsin, "Who says University of Wisconsin Student Union patrons aren't healthy, clean-cut kids? The union says it sells about 190 gallons of beer a week to students — and 1,400 gallons of milk."

Weather Forecast

The five-day forecast calls for temperatures to average above normal with the high reading in the mid 30's to upper 40's Low readings are expected to be in the 20 to 30 range, with little day to day change. Normal temperature for the period is high 39, low 23.

Precipitation may total one-fourth inch water equivalent, occurring as showers or snow about Sunday.

Background Scripture: John 2 13 through 3 36.
Devotional Reading: John 3 16 21.

People who are evasive in their answers are annoying. We all know the type of person who, when asked what time they must go, reply with a vague "In a while." There are also those who evade our questions by adroitly changing the subject.

Rev. Althouse

There are quite a few times in the Gospel of John when Jesus seems to be that kind of person. In John 3 when Nicodemus comes to Jesus one evening, the Pharisee expresses his admiration for the signs and wonders Jesus has performed. Jesus, however, seems to change the subject: "Truly, truly, I say to you, unless one is born anew, he cannot see the kingdom of God." But Jesus, Nicodemus is talking about your signs and wonders, not the kingdom of God!

Beyond The Signs

If we examine the reply of Jesus, however, we find that in fact Jesus has not changed the subject. Actually, he has moved to the very heart of it, saying in effect: You have seen the signs, but I am asking you to look beyond the signs and see what they are pointing to, the kingdom of God; if you would see that, you must be willing to be made a new person. Anyone with eyes can see the signs, but the miracles point, not to themselves, but to the kingdom. To see the kingdom takes more than a few minor adjustments; it requires rebirth.

The words which Jesus uses with Nicodemus mean literally "born from above." Thus the new birth is not something that a man can accomplish by himself. It is given to him by God. Like grace, it is a gift. an unmerited gift. As at Cana the water was turned to wine, so God can transform our old lives so completely that we become, in effect, new persons.

Nicodemus reacts the way many of us would: he is so taken aback by the bluntness of Jesus' reply that he stalls for time by pretending not to have understood Jesus. "Do you mean that a man must be born of his mother two times?" he asks. Jesus was accustomed to this kind of evasion. Patiently he explains that he was not speaking of physical rebirth, but of spiritual. Nicodemus needed to be reborn within his spirit. He needed to let Christ make of him a new person.

Who, Me?

We have no idea how Nicodemus reacted to all this; John doesn't tell us. Yet we can imagine that he was at least surprised, if not shocked. Nicodemus should become a new person, Jesus had said. But didn't Jesus realize that Nicodemus was already a very religious, a most respectable man? He was a Pharisee and thus he observed the law with an almost fanatic devotion. Who could ever criticize this man's behavior or public actions?

Jesus was not talking about what a man might appear to be. He looked beyond a person's actions and behavior to the reality of his inner motivations. "That which is born of the flesh is flesh, and that which is born of the spirit is spirit", (John 3:6 RSV). In other words, even if a second physical birth were possible, that would not bring forth a reborn spirit. It is the inner self which needs to be made new.

Even Nicodemus, the respected, pious Pharisee, needed to become a new person. And you, if God were to change you today, where would he start? If we are drunkards, thieves, murderers, or adulterers, it is easy to see where the new life in Christ needs to be made evident. But if we live quiet, respectable lives, if we have been brought up in the church and continue as a member, the need to be reborn within is no less imperative. In fact, Jesus found that the respectable, pious people were often the ones most resistive to his transforming power. Thus, they were often the ones who needed it most.

Is there a need for a new you?

ATTEND THE CHURCH OF YOUR CHOICE SUNDAY

NOW IS THE TIME . . .

By Max Smith
Lancaster County Agent

To Meet Market Demands

The food producer must continue to grow farm commodities that are in demand by both the processor and the consumer. Actually, it s the consumer who has the most to say about it. Over-finished meat animals or low quality items of any kind bring less money but require the same high production costs. A good knowledge of what the consumer wants should be helpful.

To Control Livestock Parasites

Even the animals at State Show reflect the problem of external parasite control. No doubt the problem is greater among herds not showing Producers are urged to eliminate both external and internal parasites for the most profit

To Buy Legume Seeds

Time is passing rapidly and in another four to six weeks clover and alfalfa growers will be broadcasting seed in winter wheat. That is, if a seeding is to be made in winter grain In order to get the variety and quality needed, growers are urged to get their needs soon. Certified seed of adapted varieties will give greater returns for capital, labor, and management

Landis Bros. Join In Safety Program

Tractor accidents according to national statistics, are one of the leading causes of injury and death on the farm The National Safety Council has estimated that tractor overturn accidents annually claim approximately 500 lives in the United States

Landis Bros, Inc will participate in a major nationwide safety program this winter aimed at encouraging farmers to use roll bar protective frames on their tractors

The roll bar protection puts a steel frame around and over the tractor operator and is designed to protect him should his tractor upset accidentally

They will be one of 3 000 John Deere dealers in the United States and Canada who will give away a John Deere Roll-Gard in cooperation with John Deere The local firm will give the safety frame away to one of the farmers attending the showing of the John Deere "Farming Frontier" movies on Jan 23, 1968 at 1305 Manheim Pike, Lancaster

Landis said that the purpose of the program will be to assure there will be at least one tractor in each farming community equipped with the protective frame He said it was felt this would create interest and awareness of the availability of such safety protection

John Deere engineers pioneered in the research and testing which resulted in such safety protection

Extensive testing by John Deere engineers, who deliberately tipped tractors to see what happened in such accidents, showed that a tractor which tips over almost always rolls more than 90 degrees and frequently pins the operator underneath

The tests showed that a tractor equipped with Roll-Gard usually only rolled 90 degrees, with the frame stopping a complete roll-over The frame, however, was designed to support the tractor weight in the event of a complete roll-over.

The tests showed that if the operator was wearing a seat belt at the time of the tip-over, he was held within the protective zone provided by the steel frame and normally avoided serious injury because of the protective frame

GOOD FEEDING

pays off in the milk pail

GOOD FEEDING starts when you use

Red Rose DAIRY FEEDS

It's in the milk pail where the results of good feeding really show. How the milk gets there depends largely on the roughage, grains and supplements you use to help the cows produce it.

When you use RED ROSE DAIRY FEEDS (they're available in many protein levels) or RED ROSE SUPPLEMENTS mixed with your home-grown grains, you can be sure that the cows in your barn will be eating just about the best feed you can provide.

Investigate the complete line of Red Rose Dairy Feeds . . . and choose the one best suited to your needs. **You'll be pleased with the results they give — and the extra money they will earn for you.**

Maverick Wins Honors

A stray steer whose owner could never be located won 10th place Thursday in the Angus baby beef division of the Farm Show's 4-H Club competition

The jet-black maverick named "Snowball," which competed in mediumweight classes, now belongs to 14-year-old Steve Snyder, Dover, RD 3, York County It was among baby beeves to be auctioned off Friday afternoon

"Snowball" was a 350 pound bull calf when he wandered on to the Snyder farm 14 months ago Repeated newspaper and radio advertising failed to locate the owner

Tony Dobrosky, assistant county farm agent in York County, suggested to John Snyder, owner of the 29 acre farm the bull calf decided to call home, that he let Steve raise it as a 4-H project

"Snowball" was "steerized" and has grown into 965 pounds of future steaks, roasts and hamburg.

The steer is the first animal Steve, who is a member of the Wellsville 4-H Club, has ever shown at the Farm Show

Miss Kauffman; C. Stauffer Get Holstein Wins

HARRISBURG — Lancaster County Holstein breeders won a reserve grand championship, a junior championship, a reserve junior championship and a first place Get of Sire here Tuesday, in a fast moving show held in the large arena at the Farm Show Building

Penn Springs Bill Topper, the homebred senior yearling of Susan Ann Kauffman, Elizabethtown, continued her winning ways by taking junior champion honors in the open show and reserve grand champion of the Junior Division. Topper showed in the Senior Yearling Heifer class.

Following Miss Kauffman's entry to the reserve junior championship from the second place finish in the same class was Sunny Craft Lucy Captain shown by Clarence Stauffer, Ephrata.

Another county first came in the Junior Get of Sire class for Susan's father, Robert H. Kauffman.

Judge E A. Dawdy, Salina, Kansas, named the first place milking 4-year-old of Samuel B. Acker, Chester County as his senior and grand champion and a 2-year-old for Richard Troutman, Jr., Berks County was reserve senior and reserve grand champion. Troutman's entry was also the grand champion of the Junior Division

Premier Breeder was Alpheus L Ruth, Berks County and Premier Exhibitor was Allen Dairy Farms, Cumberland County

Berks County had the first place County Herd

County placings are as follows:

Heifer Calf, 9, Linda Lou Kauffman, Elizabethtown; (Junior Division) 4, Linda Lou Kauffman, 7, Donna Jean Hess, Strasburg

Junior Yearling Heifer, (Junior Division) 9, Raymond Bollinger, Ephrata

Senior Yearling Heifer, 1, Susan Ann Kauffman, 2, Clarence Stauffer; 8, Jay E Smoker, Stevens; 9 & 10, Robert Kauffman; (Junior Division), 1, Susan Kauffman; 6, Jay E Smoker.

THE PENNSYLVANIA POULTRY FEDERATION 1968 Farm Show Banquet was held in the Ballroom of the Penn-Harris Hotel, Wednesday evening. These people appeared on the program. (left to right) Front Row, Dr. and Mrs. Claude W. Miller, Allied Industryman of the Year; Kathleen Hickernell, Pennsylvania Poultry Queen, and Leland H. Bull, Pennsylvania Secretary of Agriculture. Second Row, Walter E Wheelock, Federation President, Harry R. Ulrich, Past President, and Hendrik Wentink, Toastmaster. L. F. Photo

Pa. Poultry Federation Banquet Draws Big Crowd

The capacity crowd of over 400 diners filled the Ballroom and adjoining Assembly Room of the Penn Harris Hotel Wednesday night for the annual Farm Show Banquet of the Pennsylvania Poultry Federation

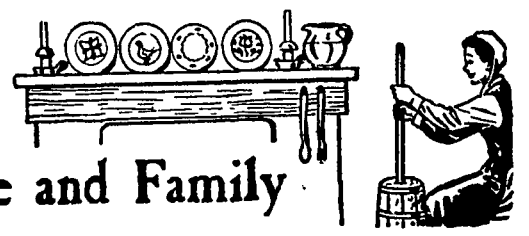
On hand to bring greetings to the group were Leland H Bull, State Secretary of Agriculture and Kathleen Hickernell, Newmanstown, Pennsylvania Poultry Queen

Dr Claude W Miller, Bureau of Animal Industry Laboratory, Harrisburg, was named the Allied Industryman of the Year and was presented a citation by Harry R Ulrich, Past President of the Federation. Dr Miller has worked at the diagnostic laboratory for 31 years Mrs. Miller was presented with an orchid

Walter E Wheelock, President, spoke to the group briefly about membership support for the new Federation year and listed in the special membership booster club the following

Mattern's Hatchery, Inc. Babcock Hatchery, Inc, Wallace Hy-Cross Hatchery, Inc. Tri-County Producers Cooperative Association, Inc, Wheelock Hatchery and Ralston-Purina Co, St Louis

The main speaker for the evening was Dr Noah Langdale, Jr, President, Georgia State College, Atlanta Georgia He spoke on the subject, "Discoveries '68".



For the Farm Wife and Family

By Mrs. Richard C. Spence, Food Editor

SUNDAY DINNER VEAL

SPENCE

Let's not forget veal as a Sunday dinner meat This is a very tender mild-flavored meat There is as much variety in cuts of veal as there is in beef Among the chops and steaks are rib and loin chops, and sirloin steaks, and cutlets Often found at the meat counter are the leg and shoulder roasts, either bone-in or boned, rolled, and tied. Cubed veal for such a recipe as Veal Paprika may be available already cut or it can be cut from the veal shoulder

Veal is a versatile meat that can be used with many subtle seasonings and sauces to bring a change to the menu.

A veal leg roast takes no time at all to prepare for cooking. Place the roast on a rack in a low sided pan. For a change in seasonings try rubbing the roast with celery salt and white pepper; or if you prefer use basil or marjoram in place of the celery salt. Insert the roast meat thermometer into the center of the roast taking care that it does not touch the bone. Do not cover or add water. Place the roast in a 325 degree oven until the meat thermometer reads 180 degrees or about 3½ hours for a 6 pound roast. Add about one hour if the roast weighs 8 pounds.

If you are lucky enough to have some of the veal roast left for another meal, you will be pleased with this easy-to-fix skillet recipe using cubed roast veal.

ITALIAN VEAL WITH NOODLES

- 4 cups cubed roast veal
- ¼ cup salad oil
- 2 tablespoons lemon juice
- 2 tablespoons catsup
- 2 tablespoons finely chopped onion
- 1 small garlic clove, pressed
- 1 teaspoon salt
- ¼ teaspoon pepper
- 1 2-oz. jar sliced pimiento
- 1 4-oz. can sliced mushrooms with liquid
- 7 ounces wide egg noodles, cooked
- 1 chicken bouillon cube dissolved in 1 cup boiling water
- 1 cup shredded Cheddar cheese

Combine oil, lemon juice, catsup, onion, garlic, salt and pepper. Place the veal in a large skillet and pour the oil mixture over it. Marinate 30 minutes. Heat veal and marinade 10 minutes. Stir in pimiento, mushrooms, noodles and bouillon. Heat, stirring occasionally, until hot, and liquid is absorbed, about 10 minutes. Top each serving with cheese. 8 servings.

* * * *

SUNSHINE VEAL CHOPS

- 8 veal loin chops, 1 in. thick
- 2 tablespoons fat
- ¼ cup water
- 1 11-oz. can Mandarin oranges
- 4 teaspoons cornstarch
- ½ teaspoon curry powder
- ⅛ teaspoon tumeric
- 2 chicken bouillon cubes
- 1 cup boiling water

Brown veal chops slowly in fat in large skillet. Turn to brown evenly. Add ¼ cup water. Cover and simmer about 45 minutes or until crops are tender. Add additional water, if necessary. Drain oranges, reserving the liquid. In a small bowl blend cornstarch and seasonings in small amount of orange syrup to make smooth mixture. Add to remaining orange syrup and bouillon dissolved in 1 cup boiling water in a saucepan. Cook slowly, stirring constantly until thickened and clear. Stir in Mandarin orange sections To serve, spoon hot orange sauce over chops.

* * * *

BACON SEASONED VEAL PAPRIKA

- 2 pounds cubed veal stew meat
- 4 slices bacon, cut into 1 in. pieces
- 2 tablespoons chopped onion
- 1 teaspoon salt
- 1 teaspoon paprika
- 1 13½-oz. can tomato juice
- 1 cup dairy sour cream

THIS MAN CAN PROBABLY SAVE YOU AND YOUR FAMILY A LOT OF MONEY

David B Bucher knows the "ins and outs" of woodworking In his leisure hours, it's not unusual to find him in the workshop of his Ruby Street home, putting the finishing touches on a cupboard, table or chair. Dave also is a handy man to talk to when it comes to arranging an estate He's the Estate Planning Officer at your Headquarters for Money Matters, The Conestoga Bank It's his job to help you establish your trust, either by wills or by living trust. Being a family man himself he knows how important it is to make sure that beneficiaries of trust funds receive the maximum. Dave would like very much to share with you the benefits of his knowledge and ability. He has had vast experience in the administration of estates and trust funds, large and small, for families in Lancaster County Give him a call or drop in soon at the Lancaster area's "Headquarters for Money Matters".

(Continued from Page 10)

1 7-oz. package fine egg noodles, cooked
1 tablespoon poppyseed
½ stick (¼ cup) butter or margarine

Panfry bacon in large skillet until cooked, but not crisp Add veal and onion and brown in hot bacon fat Season with salt and paprika Add tomato juice, cover, and cook slowly about 45 minutes or until veal is tender. Stir in sour cream Cook uncovered 5 minutes Serve over poppyseed noodles

POPPYSEED NOODLES:

Drain cooked noodles well and toss with poppyseed and butter. 4 to 6 servings

* * *

VEAL CUTLETS & HOT CHERRY SAUCE

4 veal cutlets or chops, ½ to ¾ inch thick
2 tablespoons fat
Salt
Flour
¼ cup water
½ cup syrup from cherries
¼ cup water
2 tablespoons lemon juice
4 teaspoons sugar
½ teaspoon cinnamon
1 teaspoon flour
½ cup drained, pitted sour cherries
¼ cup slivered, toasted almonds

Melt fat in skillet Dip veal into salt-seasoned flour Brown quickly on both sides Add ¼ cup water Cover. Cook slowly about 35 minutes Remove cutlets from skillet and place on warm platter Add syrup from cherries, ¼ cup water, lemon juice, sugar and cinnamon to remaining fat in skillet. Blend well In a small dish, mix 1 teaspoon flour with small amount of water. Slowly add flour mixture to sauce, stirring constantly. Heat sauce until thickened. Add cherries. Spoon hot sauce onto veal cutlets. Sprinkle with almonds 4 servings

VEAL BARBECUE A LA RICE

1½ cups cubed roast veal
1 tablespoon fat
2 tablespoons finely chopped green pepper
2 tablespoons finely chopped onion
1 bouillon cube
¾ cup boiling water
1 cup tomato juice
2 tablespoons cornstarch
2 tablespoons water
¼ teaspoon cloves
¼ teaspoon thyme
¼ teaspoon oregano
¼ teaspoon rubbed sage
½ teaspoon salt
2 cups hot cooked rice

Melt fat in a large skillet Add pepper and onion and heat until both become soft Dissolve bouillon cube in boiling water and combine with pepper and onion in skillet Add tomato juice and heat sauce to boiling. Make a paste of the cornstarch and water. Stirring constantly, slowly add cornstarch mixture to sauce in skillet When sauce thickens add cloves, thyme, oregano, sage and salt Blend well Add veal. Heat 5 to 10 minutes or until meat is heated through Serve on hot cooked rice. 4 servings

Lighting Checklist

Look for the following characteristics of a well-lighted study area

Light spread over entire working surface
No shadows from hand or body on the work
No direct view of bulb or under-shade brightness
No glare spot of light bulb through shade
Light-colored, non-glossy desk surface
Light-colored back wall or tack board
Some light thrown up on walls and ceiling.
Some general lighting elsewhere in the room

Differences In Ice Cream And Ice Milk

The chief difference between ice cream and ice milk is the amount of butterfat each contains Although this varies from manufacturer to manufacturer, ice milk usually contains three to six percent butterfat while ice cream has ten to eighteen percent.

Because it has less butterfat, ice milk lacks the rich creamy texture of high-quality ice cream

Ice milk contains more nonfat milk solids which means you get more protein and calcium

Ice milk has fewer calories than ice cream. One serving of ice milk has about three-fourths the number calories found in the same size serving of ice cream.

Despite the difference, ice cream and ice milk cost about the same.

When Buying A Readymade Garment

Before buying a readymade garment, consider these construction details:

Seam stitching should be straight and even with no missed stitches or hanging threads. An average number of stitches per inch is 12.

Look for an adequate seam allowance, especially at pressure points where the dress fits closely. Seam finishes should being and finishing pigs suited to the fabric to prevent raveling.

Interfacing needs to be of correct weight and quality for the fabric and style of garment. The bulk of the interfacing should be trimmed out of seam allowances.

Check to see if the hem is reasonably deep and straight. Any ease should be evenly distributed with no pleats laid in it Stitches should be inconspicuous from the right side

You'll want zippers and plackets to be inconspicuous. Hooks and eyes and snaps need to be sewn in securely Quality buttons are sewn with shanks when needed And buttonholes need to fit easily over the buttons

Any trim should be neatly applied, durable, and require the same care as the garment

If the dress you like is washable, look for a label that guarantees colorfastness and controlled shrinkage Also check to see if it is machine or hand washable and dryer safe.

MOLDY CORN

Moldy corn should not be fed to breeding swine, cautions Dwight E. Younkin, extension livestock specialist at Penn State University, but it can be fed in limited amounts to growing and finishing pigs

French Fries Exceed Baked Potato Sales At 1968 Farm Show

HARRISBURG, Jan 16 — Baked potatoes a Farm Show tradition, played second fiddle to french fries at this year's show

Owen Barkley, general manager of the Pennsylvania Potato Growers' Association and the man in charge of the booth where both the baked and fried varieties were sold, attributed the change to the age of Farm Show visitors

"We had more young people this year and they seemed to prefer french fries," Barkley said

On a good day . when the attendance topped 100,000 he said his booth sold 8,000 cups of french fries and almost that many baked potatoes This was not the total amount sold at the show since most food booths also sold potatoes

The eight-ounce potato baked at the show became a five-ouncer by the time the water dissipated in the baking process

The baked spuds were all hand scrubbed so that visitors had no qualms about eating the skins.

This year's potatoes were grown in Schuylkill County. Each year the potatoes come from a different section of the state.

10% extra daily gain—on 8% less feed

...with Ful-O-Pep Super Cattle-izer Beef Supplement

We've got the figures! Over 175 lots of steers and heifers have been fed Ful-O-Pep Cattle-izer at the Ful-O-Pep Research Farm. The usual improvement was 7% to 12% in daily gain . . . on 6% to 10% less feed per cwt. gain . . . with usual *net return of $3 to $7 more per head!* Comparison lots were fed exactly the same except for the "Cattle-izer." It's a great new development in ruminant nutrition.

How does it work? The "Cattle-izer" principle changes the proportion and concentration of several organic acids produced in the rumen . . . resulting in about 10% more useful energy from the feed.

Let us show you more records . . . more details on how Ful-O-Pep Super CBS can help you get faster, more efficient gains . . . higher net returns! Come in.

Senator Says Economy Depends On Agribusiness

A member of the Pennsylvania State Senate told a group of dairy industry people that on the well-being of agribusiness depends the well-being of our economy as a whole

Senator Donald O Oesterling, speaking to the 43rd Annual Banquet of the Pennsylvania Dairyman's Association in the Penn-Harris Hotel in Harrisburg Tuesday evening said, "And if this well-being is going to exist it means that farm income must occupy a much more favorable position with respect to non farm income than it does at the present time It is not enough that an occasional trickle of prosperity is allowed to filter down to the farmer"

Oesterling told of a survey taken in the western part of Pennsylvania which disclosed that people thought the profit on a quart of milk was anywhere between 5 cents and 10 cents "Wouldn't they be surprised to know," he said, "that it is much closer to ⅓ of a cent"

In discussing the administration's apparent wish to transfer the functions of the Milk Control Commission to an agency of the Executive, presumably the Department of Agriculture, the senator said, "To this I do not subscribe, and I do not see how that could be of benefit to the dairy farmer"

The senator received scattered applause for this statement from the dairymen attending the banquet in the hotel ballroom

On the imitation milk problem Oesterling said, "I haven't tasted it, but when some character begins with skim milk, adds cocoanut oil or some other saturated fat and additives, then tells me that it is just as good as milk, he'll have quite a selling job on his hands I am a little wary of being told that there is something just as good and it is cheaper," he said

In conclusion Senator Oesterling said, "It is my thinking that there should be a greater measure of co-operation among the farm co-operatives, and a greater measure of liaison among the co-operatives, the industry and the consumer In other words, the dairy farmer and dairy industry will have to pay less attention to defensive action and pay more attention to offensive action. Let the dairy industry decline and the consumer will find, to his sorrow, what milk will cost"

Other features of the meeting were greetings from Leland H Bull, Secretary of Agriculture and remarks by J Lin Huber, Chairman of the Pennsylvania Milk Control Commission.

The immediate past president Paul R Anthony made the annual Extension Award to Herbert C Gilmore, Dairy Specialist from Penn State Victor Plastow, Lancaster County Associate Agent received this award last year

Clair Nolt, age 11 and his brother Dale, age 8, smile at the baby chicks eating mash at the Pennsylvania Farm Show this week in Harrisburg. The boys were visitors with their parents Mr. and Mrs. Miles Nolt, Manheim R1.

Kent Fritz Has Corn Yield Of 245 Bushels

HARRISBURG — For the first time in the 20-year history of the Pennsylvania One-Acre Corn Contest, four young persons produced yields of over 200 bushels of shelled corn per acre. Champions for 1967 were announced Tuesday night, during the annual corn growers banquet at the State Farm Show.

Kent Fritz, of Warwick High School, Lancaster County, had the highest yield of all champions with 245 bushels of shelled corn per acre in maturity group 3 for growers of medium to full-season hybrids. Second place in maturity group 3 went to Belinda Springman, of Muncy High School, Lycoming County, with 210 bushels per acre

Ephrata Veterinary & Animal Health Course Set For Jan. and Feb.

Six Veterinary and animal health meetings have been scheduled by the Agriculture Department of Ephrata High School on consective Tuesday evenings starting January 23rd, at 7.30 p. m.

The course will include several timely topics concerning animal health and livestock care, as suggested by area farmers at the last April planning meeting. The objective of the meetings is to become more familiar with symptoms, preventive measures, and treatment of the various farm animal health problems.

The scheduled dates are as follows: Jan. 23, 30; Feb. 6, 13, 20 and 27.

REMOVE SNOW

Remove heavy snow from evergreens with a broom, remind extension ornamental specialists at Penn State University Some expensive plants can be severely damaged within a short while during a heavy snowfall But, remember, don't remove the snow, if the plants are covered with ice.

WHY? YOU ASK?

WHY SHOULD YOU LIST YOUR COUNTRY PLACE, FARM, LAND OR LOTS WITH WENTZEL?
Because Wentzels have many waiting city buyers who many times pay higher prices than your local buyers; because everybody knows Wentzel advertises regularly; Wentzels help arrange financing; Wentzel has a whole barn-full of ex-farmer boys (now skilled negotiators) to help sell your present place more quickly and efficiently and to help you buy or build your next home. Phone 394-3763 today.

EXCLUSIVE FIBERGLASS TANK
Lightweight, Strong as Steel

Another Gehl first! New, optional Mix-All tank of modern fiberglass reinforced plastic — the space-age building material. Advantages: tank is strong as steel, yet weighs ¼ as much; rust-proof (not affected by salt or minerals); permanent molded-in white color won't scratch, peel or require re-painting; smooth interior sides reduce feed bridging, allow faster unloading; insulates better, reduces moisture condensation.

OTHER GEHL MIX-ALL FEATURES:
- 66 thin, steel hammers that CUT . . . not POUND to give you a uniform grind.
- Semi-suction fan draws materials through screen quickly.
- Feed aerator cools all milled ingredients. Prevents caking.
- Swinging auger feeder uniformly loads the mill at your choice of speeds.

Come in! See the Gehl Mix-All with new fiberglass tank. *Financing available.*

Make us Prove it with a Demonstration!

Do you know how much milk your cows can really give?

Did you ever hear of a poultryman who gathered his eggs and then decided how much feed to give his hens? Or of a hog man who weighed his pigs and then decided how much feed they ought to get next day?

But how many dairymen do you know who weigh Bossy's milk, then decide how much feed to give her?

Doesn't make sense, does it?

Wayne's New Concept Dairy Feeding Program does! It leads Bossy into high production with high grain feeding FIRST. Then you adjust to the most profitable level, after you've learned how much milk Bossy can really give.

More dairymen every day are discovering the advantages of Wayne's New Concept Dairy Feeding Program, how Wayne's high-quality, multi-sourced ingredients pay off in the milk pail.

It works for them—it can work for YOU. Come in and talk it over.
